

Not Just For The Bedroom

This fine collection is made in England by a traditional family run firm that has over 200 years of woollen textile manufacturing experience. They use the latest technologies blended with centuries of knowledge to give you luxurious blankets of unparalleled quality, guaranteed to give you many years of use and comfort.

Our blankets make excellent, original presents that are not just for the bedroom. One blanket can have many uses. We'll leave the rest to your imagination.

Why Choose Wool?

Wool is nature's performance fibre providing you with the best environment for natural all round comfort and well-being.

Wool is soft and fine and has the unique ability to breathe which helps to keep you warm when it is cold and cool when it is hot - wool's vapour management properties result in increased deep sleep, more consistent skin temperatures, lower heart rates, a calmer rest and a better condition on awaking. Just add or subtract a layer to reach your ideal temperature all year round.

John Atkinson offer a choice of weights from ultra lightweight to extra dense qualities, providing options for all climates, seasons and sleeping styles.

Environmentally Friendly

Wool is environmentally friendly, as well as being healthy in use, as it comes from a renewable resource. The processes of manufacture for John Atkinson blankets are carefully controlled in order to protect the environment.

Care

All wool blankets should be dry-cleaned to preserve their appearance and durability - unless stated otherwise.
